INTRODUCTION

Thank you for purchasing your DGYAO red & infrared light therapy!

Each slipper has built-in infrared lights (880nm wavelength)+red lights (660nm wavelength). Studies have shown that a combination of infrared +red light therapy increases circulation, accelerates nerve regeneration, reduces pain, relaxes muscles, and more.

We recommend using your slippers at least once a day - in 20 minute sessions - to enjoy the full benefits of this powerful light therapy.

GETTING STARTED

Follow the below instructions to get started and enjoy the benefits of your new device:

1. Connect the slipper to either of the two DC ports on the remote control unit*Note: Remote has two DC ports. The 2nd port is a spare port for connecting a second slipper (sold separately).
2. Connect the AC Adapter to the remote.
3. Connect power cord to the AC Adapter.
4. Plug the power cord to the power socket (the plug adaptor needed for your country will be provided)
5. Instructions for use (two different light modes)
 - 5.1 Steady Lights Mode : Turn on the lights by pressing the ON/OFF button on the remote control, the lights will shut off automatically after 20 minutes' treatment. You may turn it on again by pressing the ON/OFF button. Press down on the ON/OFF button for about 3 seconds to turn off the lights.
 - 5.2 Flickering Lights Mode: Turn on the lights by pressing the ON/OFF button on the remote control, then press the ON/OFF button again , the device will switch to flickering lights mode(pulse rate :10 HZ). The lights will shut off automatically after 20 minutes' treatment. Please note that when the two light modes are used alternately, the total time is 20 minutes.
6. For maximum benefit, we recommend using your light therapy slipper with bare feet (no socks)

I haven't used LED therapy before and this has been amazing. Before I started using my pain was so bad it was hard to put weight in my foot. I saw results in two days. Easy to use, non-invasive and amazing results! Really helps with inflammation.

★★★★★ Help for foot neuropathy

Reviewed in the United States on may 5, 2021
Color: One Pads Set [Verified Purchase](#)
I purchased this item after watching a webinar about neuropathy that used the red LED-infrared light therapy for treatment of neuropathy. I have been using this devise now for a couple of weeks and the neuropathy in both of my feet appears to be greatly reduced. I seems that I can start to "feel" both feet again and excited that continuing to use this devise will help even more. I was only able to purchase the single shoe/boot and hoping to get an additional one sometime in the future. I do recommend this product.
